"I received way more out of the class than I paid for. I love what you do and give here. I feel better than I have in years."
-Pat Holley, Beech Island, SC

"Wow! You two did such an excellent job with the 8-week class that it far exceeded my expectations. It felt more like a club atmosphere than a class. I wish I could continue on with the next class."

-Amy Kaplan, Martinez, GA

"I learned a lot and enjoyed myself in the process while attending Simple Steps to Health class. Dr. Pendergrast is well-informed, up-to-date with information, more-than-willing to field a myriad of questions, and extremely approachable. Coach Gail is enthusiastic, empathetic to each person's individual situation, and extremely encouraging."
-Jacqueline Griffin, Martinez, GA
